In order to use George in the most convenient way, you are able to switch between different languages. For the app, you can choose between English, German, Hungarian, Croatian, Czech, Ukranian, Romanian, Slovakian, French ✨, Serbian ✨, Turkish ✨ and Polish ✨.

When using the browser version, you can decide between German and English.

Please note

✨ means that this language is supported by AI. Therefore George uses machine translation tools. While these are improving day by day, they cannot replace the magic and accuracy of text written by human copywriters. Therefore, please do not expect perfection regarding the George style and terminology. For legal and practical reasons, some texts will only be available in English or the main language of your country.
