Account Statements

Last Article Update 02.02.2024

With account statements you stay up-to-date about everything that is happening in your accounts, including the balance as a result of all the transactions within the account during a certain period of time. With George, you can create such a statement easily with just a few clicks and then download it for further use.

How to create and download/print account statements

App

From your overview, choose the giro account for which you want to create an account statement.

Go to **"Functions"**.

Go to **"Statements"**.

Choose **"Create statement"**.

Finish by clicking on **"Create statement"** again on the next screen.

George will create an account statement, including **all transactions since the last available account statement**.

You can choose if the statement should be signed by the bank and/or include booking receipts.

Once the new account statement is created you can **download** it as an PDF. In order to **send, share or even print** the account statement, please open the downloaded pdf and proceed from there.

All your account statements are stored at this same place in "**Statements**" and can be easily accessed anytime via George.

Web Browser

Choose "**Your Products**" in the menu.

Choose the giro account for which you want to create an account statement.

Click on "**Account Statements**".

If there are transactions available, you are able to create a new statement.

Click "**Create**".

George will create an account statement, including **all transactions since the last available account statement**.

You can choose if the statement should be signed by the bank and/or include booking receipts.

Once the new account statement is created you can **download it as an PDF**. In order to **send, share or even print** the account statement, please open the downloaded pdf and proceed from there.

All your account statements are stored at this same place in "**Account Statements**" and can be easily accessed anytime via George.

Signed, electronic account statements make the original paper version redundant. They are approved by the tax authority, make it easy to

search for transactions and are better for the environment. Make sure to try it out, if you haven't already.

How to download specific transactions within certain timeframes

Please note:

George will always create new statements that start with the first transaction after the last existing statement.

Here's an example: If your last account statement was created on 25 October 2023, your new statement will start with 26 October 2023 and will end with the date on which you created it.

Due to the fact that account statements need to cover **all** the transactions happening in the account, **it is neither possible to select a customisable time or timeframe nor to include/exclude specific transactions from the statement.** It's like the good old account statement printers in your branch: The new statement always started where the last one ended.

If you want to download the transaction details within a specific time or timeframe or if you want to include only specific transactions, please use the [export function which also allows you to export \(and print\) only specific search results.](#)
