# Manage Existing SEPA Direct Debits as a Creditor

Last Article Update 04.09.2024

With George it's not only easy to [create transfers](#) of any kind. You can also collect money from someone else and third parties can collect money from you - with so-called [SEPA direct debits](#). In the following article, you'll find out how you, as a creditor, can manage your existing SEPA direct debits.

## Please note

**Not all accounts can initially create a SEPA direct debit.** If you want to create SEPA direct debits yourself, please **contact your personal advisor** to know how to get the respective account rights to do so.

As the name implies, SEPA direct debits are only available within the **SEPA region**.

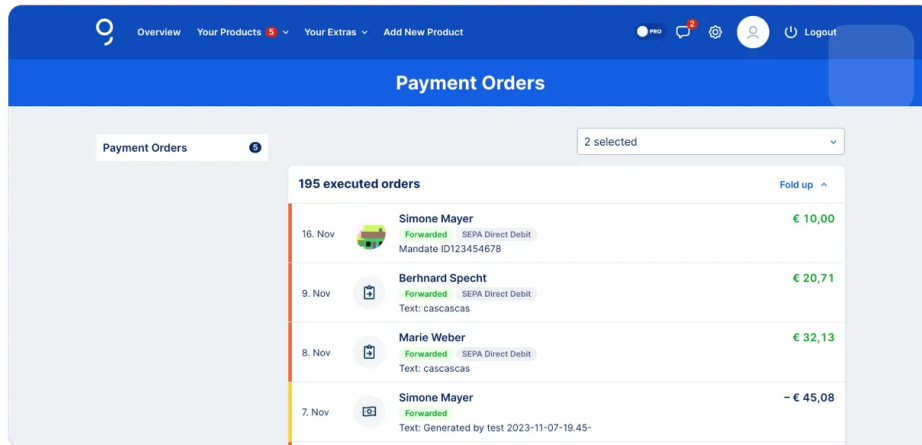

**Please also make sure that you received a signed SEPA direct debit mandate from the debtor - this is mandatory.**

If you **created your SEPA direct debit** but didn't **sign** it yet, it will appear in your order list. You can go to your order list by clicking on "**Your Products**" on the top of the screen and then "**All about your orders**".

From within the order list, you can **edit** your order, **delete** it or **sign** it.

As soon as you **signed** your direct debit, it will appear under the section "**Executed orders**" in your order list.

As long as the **execution date lies in the future**, you can **still cancel** the order. By hovering over the respective direct debit order, you'll see the "cancel" button. Click on it and, after your confirmation, George will cancel your direct debit.

By **clicking on** the direct debit, you can either **cancel** it, **print** it or **redo** it.

**Please note**

Though George recognizes recurring SEPA direct debits, currently he is **not able to execute them regularly** on his own.

This means that you have to **manually "Redo"** your **SEPA direct debits** for each execution and, of course, **sign it**.

**Tipp:** you can always save a SEPA direct debit - as any other kind of order - as a **template**. This way, you can **save all the order details** and **sign it** right away instead of filling the necessary details each and every time.
