Create Summary Cards

Last Article Update 03.01.2024

In case you want to combine amounts and information of your different accounts and cards, you can create summary cards for your overview. This can come in handy, in case you have different savings accounts and want to see how much savings you have in total. Or you could combine your giro account and your credit card to see how much money you have left to spend after the deduction. Try it for yourself via the George browser version and create summary cards that help you keep track of your finances.

How to do it

Click the "Customise" Button on the right side of your overview.

Go to "Create a summary card".

 Print this art...

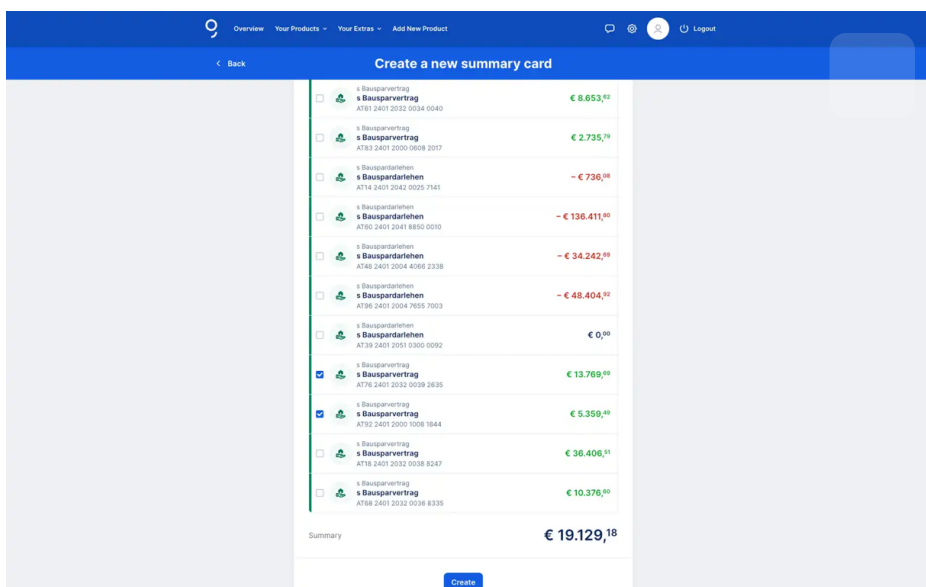

The next screen then shows you all your accounts, cards and co.

Choose the ones you want to summarise.

Name your summary card.

Click "Create" to finish.

The summary card immediately shows up in your overview and can be moved around just like all other items.

You can edit your summary card(s) anytime, delete them, rename them – or add more.
