**Not feeling blue? No worries, you can change the icon of your George app anytime. Time to switch things up with different colours or a rainbow design. Try it out yourself with a few simple steps.**

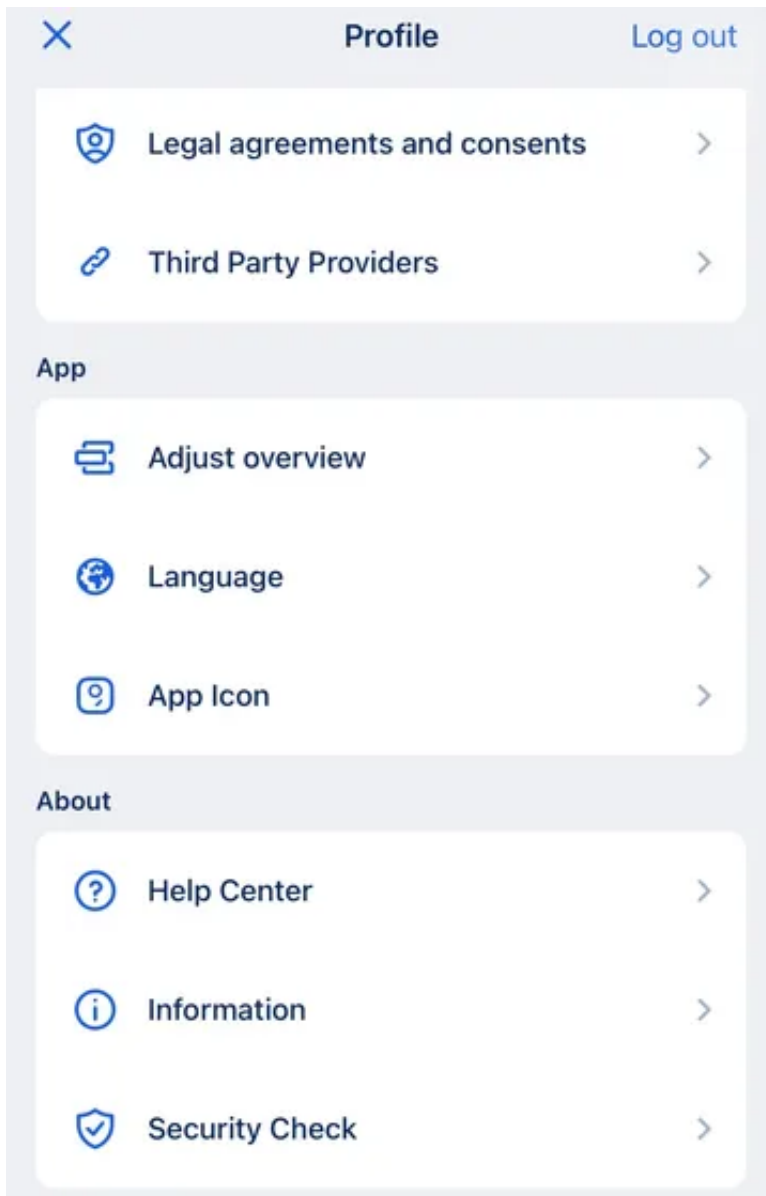

## Please note

This is currently only available for iOS, but will also come to Android in the near future.

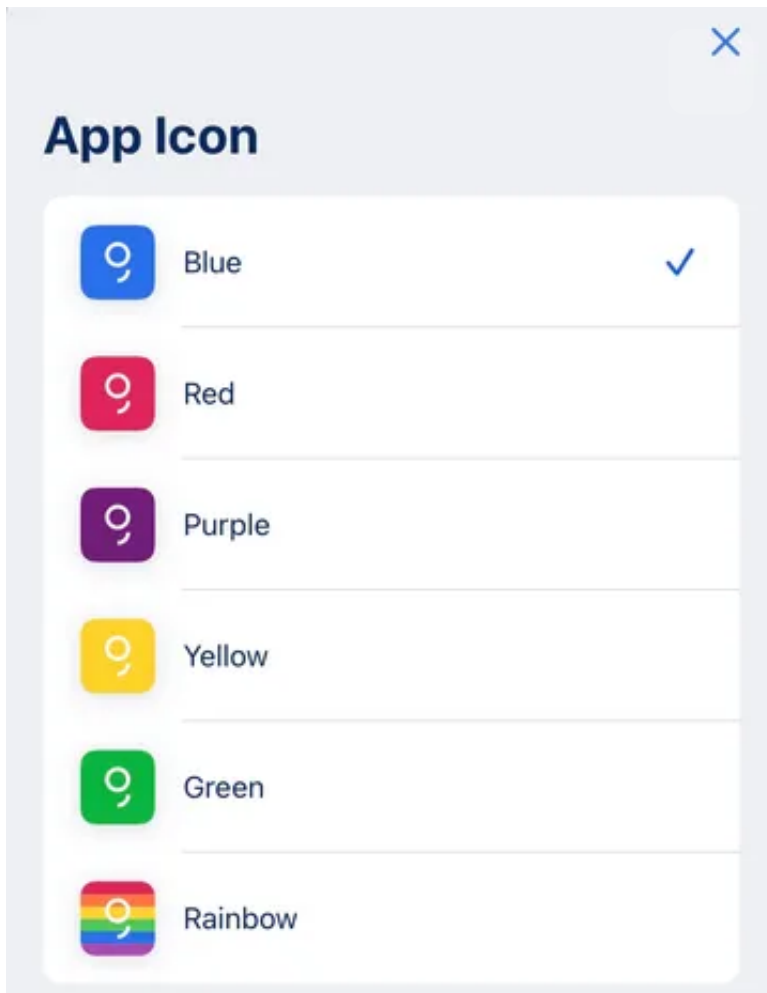

## That's how you do it

Tap the profile icon on the top right of your overview.

Within your profile area, scroll down until you see the section "App Icon".

There, you can choose the colour you want your app icon to have.

If you don't like what you see anymore, you can change back your icon whenever you want.
