# Manage Your Overdraft

Last Article Update 19.05.2023

Some surprises are quite expensive, especially when they happen unexpectedly. For example, a broken washing machine. Such unexpected expenses can throw your budget planning into chaos. To get through turbulent times, you have a financial reserve in the form of an overdraft in your current account.

You can set this up quickly and easily with George or adjust it to suit your needs.

# **General information**

You cannot enter an amount below your balance. So if you have a minus of 500 €, you cannot set the overdraft to 400 €.

Always enter the amount in steps of 100, for example 800 or 1500.

To delete an existing agreed overdraft enter 0.00 € in the amount field.

The general conditions (debit interest rate and annual percentage rate) that apply to you when you overdraw your account are displayed directly to you during the process.
