There are different ways to make a transfer with George: either by Manual Transfer, by Templates or by Scan & Pay via your George App.

Scan & Pay lets you scan either an IBAN, a QR code, a payment slip or you can also select and use a saved QR code from a folder for your next transfer.

If you want to make a transfer via Scan & Pay, follow these steps:

App

1

1. Select the account from which you want to make a transfer.

2

2. Tap on **"New Transfer"**. You will now see the screen with the transfer types **"Manual Transfer"**, **"Scan & Pay"**, and **"Template"**.
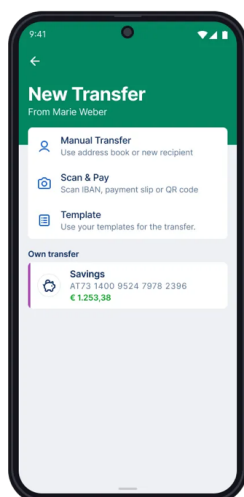

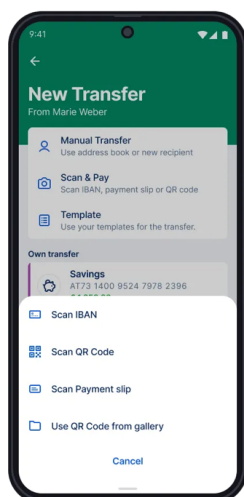

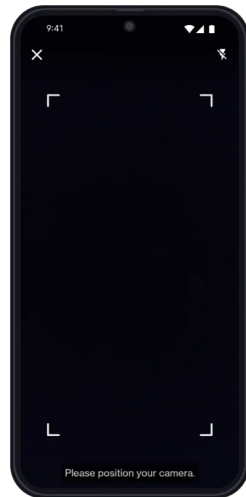

3

3. Select **"Scan & Pay"** and if you want to scan an IBAN, a QR-Code, a payment slip or if you want to use a saved QR-Code from a folder.

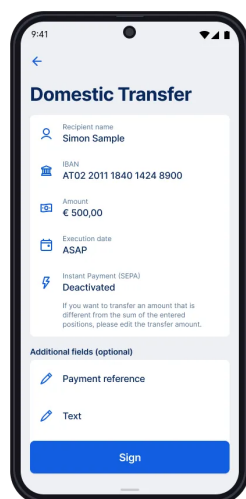

4

4. Position your camera above what you want to scan and let George do the rest.

5

5. As soon as George captured all information, the prefilled transfer form will be shown to you.

6

6. Please check all information manually to make sure everything is entered correctly.

7

7. Tap on **"Sign"** and sign your transfer.

Web Browser

1. Navigate to the **account** from which you want to transfer money.

2. On top of the overview, you'll find the button **"New transfer"**. Click on it.

3. Above the field for the recipient, you will find **"QR Code"**. By clicking on it, your browser asks you to use the camera to scan the QR Code. Please allow George to use your camera so he can process your scan.

4. Scan your QR Code.

5. George will fill in the contained information on the transfer form.

6. At the end – as in the case of regular transfers – **sign** your transfer.

After signing your transfer, George will show you this transfer in your **order list**.
