George helps you to make your transaction search quick and easy. Use the filters to find exactly what you are looking for. With the filters, you can quickly search for amounts **and** dates**, and filter for** incoming, outgoing, or highlighted transactions**.**

No matter the way in which you search, George always searches within the **transaction history** of your accounts, cards, and other financial products. The search, however does not apply to functions.

For more on the search, read up on **How to Search & Find with George** *and* **Tips & Tricks for your Search with George***.*
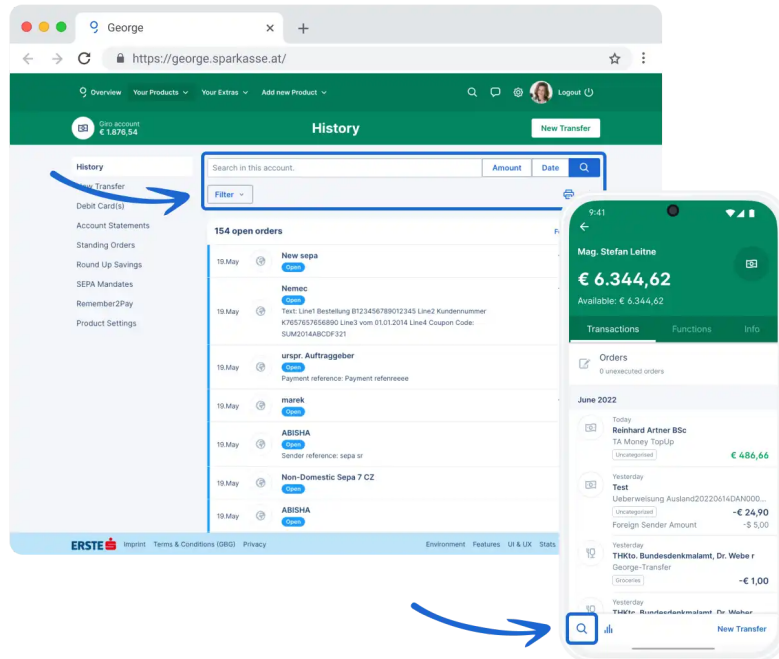

> **ⓘ Please note**
>
> In general, George will find all your transactions that are in the **transaction history of your account(s), card(s) or other financial products**. By default, this history includes the **ongoing year plus 3 years back**. You can extend that transaction history by the **7 years archive plugin** which you can activate via the **George Store** (in the George browser version).

App

Start your search with the Georg App from your overview.

1. Tap on the account, card, or product you want to search in.

2. Use the search button to start your search.
3   Select one or more of the filters amount, date, incoming, and outgoing.

Amount

1   Tap on amount.

2   Type in the amount you want to search for. See the **Tips and Tricks** for userful operators to modify your search.

Date

1   Tap on date.

2   To select a monthly interval, select one or more months you want to search in.

3   To type in a specific date, switch to custom date. Select one specific date or the dates from and to you want to search for.

4   **Incoming and Outgoing**

Sort your transactions according to them

being incoming or outgoing via the filter.

Web Browser

You can either search across all your accounts, cards, and products or within only one specific account, card or product. To search across all your accounts, cards, and products, you start directly from your overview. Otherwise, please open your account or card first.

Next to the search bar, you find the filters you can choose from: amount and date.

Amount:

1   Click on the amount button.

You can enter a minimum amount, a maximum amount, or a span of amounts. Your search results will then contain transactions only below or above the amount you entered or be within the span of amounts.

Date:

1   The date button opens the calendar.

2   Select either a specific date or a time span. Click on a specific date to select it.

To select a time span, click on the day
the time span should start and then on
the day the time span should finish.

3   Click on the find button below the
    calendar to apply the filter.

Incoming, outgoing and highlighted transactions

You can filter your search also by incoming,
outgoing and highlighted transactions. There
are two ways to do so.

1   Click on the search button next to the
    search bar in the overview.

2   George will then open your entire
    transactions history of all accounts,
    cards, and products.

3   Select one or more filters (incoming,
    outgoing, highlighted transactions) from
    the dropdown menu.

If you have already got search results, you
can filter them according to their type of
being incoming, outgoing, or highlighted
transactions.

1   Use the filter button in the overview of all
    search results.

2   Select one or more filters (incoming, outgoing, highlighted transactions) from the dropdown menu.

ⓘ **Did you know?**

Once George shows you your search results, you can **export** or **print** them.
