Be it a certain recipient or sender, categories, amounts, dates, time spans - George finds for you any transaction you are looking for.

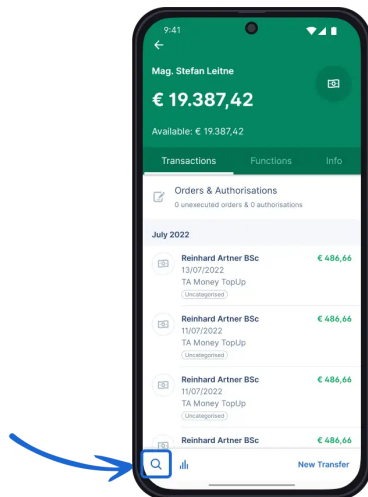

ℹ **Please note**

In general, George will find all your transactions that are in the **transaction history of your account(s), card(s) or other financial products.** By default, this history includes the **ongoing year plus 3 years back**. You can extend that transaction history by the **7 years archive plugin** which you can activate via the **George Store** (in the George browser version).
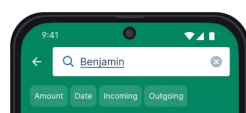

You search, George finds.

There are various **tips and tricks** that make your search even easier and more precise. You can also use the **filters for a quick search**. No matter the way in which you search, George always searches within the transactions history of your accounts, cards, and other financial products. The search, however does not apply to functions.
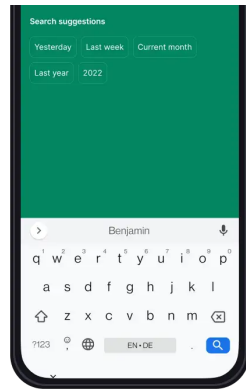

George App

1. To start your search, tap on the account, card, or financial product you want to search in.
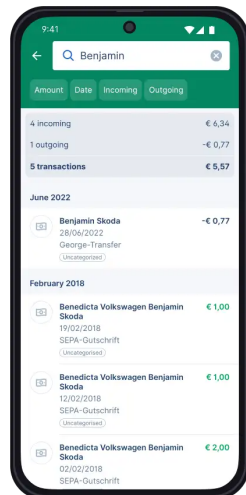

2. Tap on the search button.

3. Type in the search bar what you are looking for.

4   That's it. George will immediately show you all transactions matching your search criteria.

With additional wuick filters you can further enhance the search. For tips and tricks on how to make George's findings search even more precise, click **here.**

George Web Browser

You can start your search

directly from the **overview**: George will find transactions **across all your accounts, cards and other financial products.**

in the **transaction history** of any account or card: George will find **transactions within this specific account or card**.

from the **overview of any other financial product** which has a transaction history, e.g. loans: George will find transactions within this product.

1   Click on the search bar.

2   Type in the search bar what you are looking for.

3   That's it. George will immediately show you all transactions that match your search criteria.

With additional **filters** you can further enhance the findings. For tips and tricks on how to make the findings even more precise, please click **here**.
